ABOUT ME

I am seeking a position in Information Technology specializing in Cybersecurity. I am dedicated, solution-oriented, and willing to put in the time and effort it takes to learn existing systems and strengthen its security.

EDUCATION

University of Central Florida | 2022-2026

Bachelor of Science in Computer Science (B.S.)

Minor in Secure Computing and Networks (SCAN)

Balanced a professional workload while fulfilling all foundational credits for the major. Coursework included demonstrating various methods in cybersecurity, systems architecture, and understanding basic and advanced data structures and algorithms.

Indian River State College | 2019-2022

Associate of Arts (A.A.)

Balanced a highschool workload while simultaneously earning credits for an associates.

SOFTWARE EXPERIENCE

Web Application

- Optimized user interfaces regarding web applications using HTML and CSS
- Employed Git to launch applications and help with version control
- Implemented JavaScript to help streamline transference of data within relevant web applications

Cyber Security

- Employed AWS to build a VPC and successfully launch a web server
- Deployed a Virtual Machine to attack another Virtual Machine on the same physical machine
Demonstrated efficient decision-making during time-sensitive events
- Proved dependability in solving complex security issues

Organization and Structuring

- Built multiple fully functioning and efficient computers by hand
- Created and implemented machine-learning algorithms using Python on complex datasets
Employed complex sorting algorithms to maintain in-place data structures

WORK EXPERIENCE

Wawa | 2021 - Present

Customer Service Associate

Provided data-entry on a daily basis, as well as tended to the needs of customers in regards to cleanliness, food, and overall friendliness.

SKILLS

- Languages: Java, Python, HTML, JavaScript, R, SQL
- Tools: Git, React, Bootstrap, AWS, Linux, Agile, Jira
- Proficient in Microsoft Office (Word, Excel, PowerPoint, etc.)
